WEDNESDAY APR. 5 - - - 1911

A week prediction from the Winches McCrory in the Democratic Primary and O'Rear against the field in the Republican party and it will be McCrory against O'Rear in November. There will be a stirring campaign, a raffish finish—and a good man elected Governor.

Let this be a lesson to Judge Reed not to be a cat-paw for the politicians, who seek nothing but destruction. Let him take off his coat now and get in the fight for the best Governor the state ever had. He saw the hand writing on the wall and acted wisely.

Dear old Portlandville is having more troubles with her people than about closing the restaurants, cigar counters and soda fountains on Sunday. Let it seem as if the more "up-to-date" element have administered defeat to the dumb of fanaticism for such laws.

Let's see. Wasn't R. Floyd county that gave such big majority for Beckham in the famous Senatorial primary? There are only about 300 Democrats in the county, but Beckham carried it by something like 800. Right in John Mayo's country, too.

The Grand old Governor, Simon Buckner, was eighty-eight last Saturday, and is still hale and hearty at his home in Hart county. He enjoys the distinction of being the only surviving Lieutenant General of the Civil War.

If the war cloud doesn't hurry up and "burst" the news will be a dead one for sure, for the base ball season is on, and the correspondents at the front will have their matter pushed to the back pages.

According to the Louisville papers the Seelbach hotel gets all the trade from the rural districts of the state. "Stopping at the Seelbach" seems to be stereotyped for the personal and political columns of Louisville papers.

The millinery styles this year show that the creators of such are still candidates for the asylum. One is undoubtedly an African chief model, but we forget the name.

Who said Tom Johnson wasn't a game man? The whole country would mourn his loss, but he seems to be on the road to recovery, and here's hoping he'll pull through.

Ir Jones Reed has remained in the race until after that Hopkinsville speech and reception tendered Senator "Me" he would have been more feverish to withdraw than before.

PERSONALS

Z. T. Rice was in Paris yesterday on business.

Prof. and Mrs. T. J. Coates were in Louisville last week.

Sid Maple, of Irvine, a noted buyer of the mountains, was in the city Monday.

Miss James-Smith and Dan Harter have returned from a three months' stay in Florida.

Mrs. Julian Hanger, of Bensenville, has been visiting Mr. and Mrs. H. B. Hanger, at "Arlington."

Miss Ella O'Neil, of Paris, is here for a visit with her brother, City Collector Timothy O'Neil.

Mr. Harry Ryben has recovered sufficiently to be able to resume his position with Rice & Arnold.

Remember the grand concert to be given this month under the auspices of the Cecilia Club. Benefit of P. A. C. Infirmary.

Mr. Crest Galt has returned from Russell, N. M., where he has been for several months. He says the climate there is great.

Mrs. Clara Doty Taylor and family have moved to Richmond from Lincoln county on account of the excellent schools of this city.

Mrs. Joseph Shaffner went to Lexington Friday to attend the funeral of her son, Mrs. G. J. Welch. The interment took place Saturday morning.

FLYING IN DREAMS.

A Sensation Like That Which Sometimes Precedes Death.

The sensation of flying is one of the earliest to appear in the dreams of childhood. It seems to become less frequent after middle age. Bespin states that in his case it ceased at the age of fifty. It is sometimes the last sensation at the moment of death.

To rise, to fall, to glide away has often been the last conscious sensation recalled by those who seemed to be dying, but have afterward been brought back to life. Piron has noted this sensation at the moment of death in a number of cases, usually accompanied by a sense of well-being. The cases he describes were mostly tuberculous and included individuals of both sexes and with athletic as well as religious beliefs.

In all the last sensation to which expression was given was one of flying, of moving upward. In some cases it was peaceful, in others painful. In one case a girl died clasping the iron bars of the bed, in horror of being borne upward.

Piron associates this sensation with the similar sensation of rising and floating in dreams and with that of moving upward and resting on the air experienced by persons in the ecstatic state. In all these cases alike life is being concentrated in the brain and central organs, while the outlying districts of the body are becoming numb and dead.

Dream flight, it is necessary to note, is not usually the sustained flight of a bird or an insect, and the dreamer rarely or never imagines that he is borne high into the air. Hutchinson states that of all those whom he has asked about the matter hardly one has ever known himself to make any high flights in his dreams. One almost always flies low, with a skimming manner, slightly, but slightly, above the heads of pedestrians.

Bespin, from his own experience, describes a typical kind of dream flight as a series of light bounds at one or two yards above the earth, each bound clearing from ten to twenty yards, the dream being accompanied by a delicious sensation of ease and movement as well as a lively satisfaction at being able to solve the problem of aerial locomotion by virtue of superior organization alone.

Lafayette Hearn somewhat similarly describes in his "Shadowland" a typical and frequent dream of his own as a series of bounds in long parabolic curves, rising to a height of some twenty-five feet and always accompanied by the sense that a new power had been revealed, which for the future would be a permanent possession.—Atlantic.

Why Is It?

The attention of the Climax has been called to a very disagreeable state of affairs on Lancaster Avenue between Main street and Brock Avenue. Some time ago concrete pavements were put down by property owners after long order by the city, and the residents claim that the trash, accumulating from the work, has never been removed by the city; but is clogging the gutters and presents an unsightly appearance. If the city is guilty of allowing this to remain, there is probability of a suit and the Climax hopes it will be adjusted at once.

Prominent Elk.

Hon. J. A. Sullivan, has been apprised of the death of his good friend Judge Roberts, which occurred several days ago at Rochester, N. Y. Judge Roberts was one of the leading Elks of the county and served with Mr. Sullivan a few years ago on the committee appointed from the Grand Lodge of the United States to form the constitution and by-laws of this great fraternal order. Judge Roberts was a close friend of the Richmond attorney and had planned a visit here within a few weeks. He had just completed a canvass for re-election to a high office within the gift of the Grand Lodge and intended to come to Kentucky to recuperate.

KEEPING the quality of your goods a secret is what you accomplish when you don't advertise them.

You know they're best; so do a few others! But the general public—aren't they ignorant? Tell them! Don't keep it a dark secret.

Let the light shine through the columns of this paper.

Farm News

Items of Interest to the Farmer, the Stockman and the Stockman.

A 4-horse power traction engine has been received at J. B. Haggins' Elmendorf farm in Fayette county to be used in plowing. It will pull about twenty plows arranged in a row. All the plowing at Elmendorf will be done with this engine.

Mat Cohen will have in his string this year Price Roe, a three-year-old chest stallion by Bourbon Price, out of a Chester Dure mare; Kentucky Choice, Edna Mae, Topsy Dare, Bourbon Star, Knightly Queen and several others.

The rainy weather prevented a good horse show Monday. Horses owned in the city were present, but many from a distance failed to get in. Robt. Walker, who declares his horse Lord Rion, by Arion, is the greatest in the county, was present and also had his fine pony Cleo out. He is one of the handsomest ponies ever seen here and the season has been rushing.

As the result of a deal consummated last week Mr. Joseph Boggs, transfers his farm near this city to Simon Turpin and Mr. Turpin disposes of his newly acquired place near the L. and N. depot in the deal. A cash consideration is also named in the transfer. Mr. Boggs will remain on his farm until next January. There are 230 acres in the farm and the price was not given out, but is said to be a good one.

The miserable day and a slump in the live stock market was keenly felt at the Richmond Stock yards Monday and the markets were dull. There were about 850 cattle on the market, says Manager Emory averaging from 5 to 7 cents. About 300 stock hogs sold from 6 to 7 cents. Mules were few and only two or three sales were reported.

The March weather was disagreeable, but the ground remained in excellent condition for plowing and consequently the farmers are away ahead in this department. Very little oats have been sown, but it will not injure the yield if it is put in within the next few days.

R. C. Mason, sold to J. W. Downey, of Lexington, a pair of fine six year old mules last Monday for \$500.

William Wagers shipped 105 hogs to the Cincinnati markets last week brought at about 86. He claims the market is demoralizing local trade and the commission houses have notified local buyers to buy low for future delivery as there is liable to come a big slump. Benton & Evans also shipped a load to Cincinnati purchased at same price. Just now the live stock market is exceedingly low with very little prospects for a good upward turn.

When in need of blacksmithing in any of his branches, Farming Implements, Buggies, Carriages, Wagons, Rubber tires, etc., get prices from R. E. Miller, Union City, Ky.

Earthquakes Progress.

Japan has a great number of waterfalls which would be of material value in the development of the country, but the reason these valuable sources of power are not being developed is because of the danger of earthquakes which is constantly confronting the people. More than once within recent years have steps been taken with the view of constructing dams in order that these falls might be utilized when some demonstration of the earth has given warning of the danger of such a step and the promoters have been forced to abandon or greatly modify the proposed improvement.—New York Press.

His Own Regret.

"There's no use trying to deny it," remarked Mrs. DeFlatt, "this is the worst cook we've had yet. There positively isn't a decent thing to eat on the table."

"That's right," rejoined DeFlatt. "But," continued his wife, "there's one thing in her favor, she can't beat when it comes to washing."

"Pity we can't eat the washing," sighed the hungry husband.—Chicago News.

A Judicial Reproof.

A justice once reproved a would be suicide thus: "Young man, you have been found guilty of attempting to drown yourself in the river. Only consider what your feelings would have been had you succeeded."—Green Bag.

Wise Retailing.

Reginald—Darling, I see by the papers that a food expert says that it is possible for a family to live on \$4-a-week. Do you think it possible?

Reginald—No, dearest, but I'll be a sister to you!—Cleveland Leader.

One Man's Theory.

"No, I don't think women will ever succeed as railroad engineers." "Why not?" "They would lose too much time holding up their trains at crossing."—Boston Transcript.

Big Business.

For several weeks a St. Louis manufacturing concern has had a force of salesmen in Madison county offering a range to the farmers, and they have disposed of many. The people never seem to think that the same class of goods can be purchased at home for less money and at the same time they are sending thousands of dollars out of the county, that very little, if any, will remain here. These people pay no taxes to Madison county nor a license to offer their goods for sale. Some people think if they can buy on credit it is easy sailing, when the price they pay always include a good stiff interest on the money that the firm is "floating."

Catarh is Surely a Dangerous Disease.

Thousands of people allow catarh to slowly undermine the whole system until a serious disease develops—sometimes consumption. People who have catarh should use every effort to get rid of it, but should above all adopt a sensible method. Stomach dosing, sprays and douches won't cure catarh because it is a germ disease, and the germs must be destroyed before the disease can be conquered. HYOMEI is the most sensible cure for catarh because it reaches every fold, crevice and lock in the mucous membrane and gets where the germs are. You breathe HYOMEI and as it passes over the inflamed membrane its soothing influence heals the soreness and destroys the germs. A complete HYOMEI outfit costs \$1.00. This consists of a bottle of HYOMEI and a hard rubber inhaler. Pour a few drops of HYOMEI into the inhaler and breathe it a few minutes each day, that's all you have to do. It is guaranteed by R. L. Middleton, and struggles every where to cure catarh, coughs, and sore throat or minor lung troubles. Bottle of HYOMEI costs 50 cents.

Berea College

Again the Beneficiary of a Handsome Gift From a Wealthy Philanthropist

A special from Chicago to the Climax says: Dr. D. E. Pearson, of Hinsdale, Ill., will celebrate his ninety-first birthday April 24 by the distribution of \$200,000 to schools and religious organizations. This will make his total distributions of recent years nearly \$5,000,000, most of which has been given to small colleges.

The gifts are termed by Dr. Pearson as "debts," and in most cases are fulfillments of his pledges to different bodies of certain sums, when they should have collected other stipulated amounts. The money to be given April 24 will be distributed as follows:

American Board of Foreign Missions, \$100,000; Berea College, Kentucky, \$100,000; Dean College, Nebraska, \$25,000; Northland College, Wisconsin, \$10,000; Highland College, Kansas, \$10,000; McKendree College, Illinois, \$10,000; other smaller gifts make a total of \$300,000.

"I shall celebrate my birthday anniversary by getting out of debt," said Dr. Pearson. "A year ago I gave notice that I would be getting old by this time and a man of my age had no business being in debt. I shall lie down on April 24 out of debt for the first time in many years. I have had these outstanding pledges for many years and have worked them off as one after another of the institutions met their obligations."

While most of Dr. Pearson's gifts have been to smaller colleges, different institutions here have received more than \$1,000,000 from the Hinsdale philanthropist. Among the chief beneficiaries of Dr. Pearson among the smaller schools has been the Berea College of Kentucky, which has received more than \$400,000. In reviewing his gifts Thursday he said the one from which he had derived the most pleasure was the gift of \$50,000 for a water works system for Berea.

The philanthropist was one of the early settlers of Chicago. The greater share of his wealth came from the increased value of extensive real estate holdings in this city. Twenty-five years ago he retired from business.

All that is stylish in hats can be found in our millinery department this season. E. V. Elder.

Local Firm Will Continue Valuable Agency.

H. L. Perry, of this city, has just closed a deal whereby he will continue to be agent for ZEMO—the well known remedy for Eczema, Dandruff, and all diseases of the skin and scalp.

The extraordinary leap that this clean liquid external treatment for skin affections has made into public favor in the last few years proves its wonderful curative properties and makes it indeed a valuable addition to the fine stock of remedial agents carried by the H. L. Perry Drug Co.

They have a limited supply of samples one of which will be given free to any skin sufferer who wishes to test the merit of the medicine. A booklet "How To Preserve The Skin" will also be given to those interested.

Healthful Homes

Hot Water and Steam Systems

IN BANKRUPTCY No. 194

In the Matter of C. T. WELLS, Bankrupt.

RICHMOND, KY., April 3, 1911.

To the creditors of C. T. WELLS, of Richmond, in the County of Madison and District aforesaid, a bankrupt.

Notice is hereby given that on March 17, 1911, the said C. T. WELLS was duly adjudged a bankrupt; and that the first meeting of his creditors will be held at the office of A. R. Burnam, in Richmond, Ky., on Friday, Apr. 14, at 10 o'clock a. m., at which time said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before said meeting.

E
